A.W.M is a manufactures representative and distributor of water and environmental instruments. Specializing in supplying single measurement sensors or fully configured systems for periodic or continuous measurements in groundwater, surface water, weather and industrial applications. Officially serving our customers since 2019. Contact us to discuss your instrumentation needs, we carry some of the best and well-known brands you can trust and depend on.

Liquid Level & Pressure| Water Quality | Weather | Sampling Equipment | Flow Meters | Remote Monitoring | Outdoor Gear				
Seametrics — Flow meters & environmental sensors for precision fluid measurements	**geotech** — Your expert source for performance driven environmental equipment	**KELLER** — Level & Pressure Measurement	**PRECISION DIGITAL** — Intelligent monitoring control	**Senix** — Ultrasonic distance and liquid level sensors
bluCloud — Cloud-base remote monitoring systems	**JENCO** — Environmental and laboratory water quality instruments	**eno scientific** — World leader in non-contact water level monitoring	**NOVA bnx** — Weather monitoring sensors and systems	**Solinst** — Groundwater & Surface water monitoring instruments
Texas Electronics — Quality weather instruments for professionals	**Testwell Instruments** — Portable Water and Oil/Water Interface Meters	**ONSET** — Manufacturer of data loggers & monitoring solutions	**HSA HYDROLOGICAL SERVICES AMERICA**	**CAS DATALOGGER** — Data loggers for all applications
PECOSales — Over 12K products from 700 trusted brands	**Instruments Direct** — Flow meters expert	**OMNI CONTROLS INC.** — Test & measurement equipment	**MCINTOSH CONTROLS** — Source for sensors and control systems	
McCROMETER — Source for satellite telemetry monitoring systems	**Blue-White Industries, Ltd.** — Source for paddlewheel flow meters	**TS** — Hydrology Equipment	**CAMPBELL SCIENTIFIC** — Measurement & Control Instrumentation	

A.W.M. Your Source for Water/Environmental Sensors, Systems and Supplies
